

Enrolling Residents in Trial

1

Please approach all* residents about taking part in the trial

*except residents on short term stays or receiving end stage palliative care or in another COVID-19 trial

2

Before approach, assess resident's capacity to consent

3

If resident has capacity:

Give information sheet and show video

If resident lacks capacity:

Obtain verbal permission from personal legal representative to share details with trial team and availability for contact by research nurse

4

If resident agrees to participate ✓

- Obtain verbal permission to enter details in database
- Create new resident record in database
- Arrange consent appointment with research nurse
- Attend and support consent appointment (as required)

If personal legal representative gives permission to be contacted ✓

- Create new resident record in database and enter representative's details
- Keep resident informed as appropriate

Any questions  Please get in touch
