**Remember it is really important to report the following events into the REDCap database:**

**PROTECT-CH**  
Prophylactic Therapy in Care Homes Trial

- 1.COVID-19 Infection
- 2.Hospital Admission
- 3.Death
- 4.Serious Adverse Event

**When administering the trial medication, please remember:**

**PROTECT-CH**  
Prophylactic Therapy in Care Homes Trial

1. Check the participant's name on the label
2. Make sure the previous medication container is empty before starting a new medication container
3. Check the date on the label that the trial medication must not be used after
4. After use, store the medication in the cardboard box it was supplied in
5. Record the treatment dose on the resident's PROTECT-CH trial MAR
